OBJECTIVE

Detail-oriented Computer Science student seeking an opportunity to leverage strong problem-solving skills, programming knowledge, and project experience to contribute effectively to a dynamic software development team.

EDUCATION

G.L. Bajaj Institute of Technology and Management B.Tech SGPA: 6.47	2023 - 2027
TRC Memorial Public School Senior Secondary 77%	2022
Uma Shankar Vidyapeeth High School 94.9%	2020

SKILLS

Programming Languages: Java, JavaScript, SQL
Web Development: HTML, CSS, React
Backend: Node.js, Express.js
Databases: MongoDB, MySQL
Concepts: Data Structures and Algorithms (Object-Oriented Programming (OOP), DBMS, Full-Stack Development
Tools: Git, GitHub, VS Code
Soft Skills: Problem Solving, Teamwork, Communication

PROJECTS

Phishing Website Detector Extension

Tech Stack: JavaScript, Chrome Extension APIs, REST API Integration, JSON, Web Security Basics

- Built a browser extension to detect phishing websites using URL heuristics, HTTPS/certificate validation, and blacklist APIs.
- Integrated Google Safe Browsing and PhishTank for real-time threat detection.
- Designed a user-friendly warning system to alert users before visiting malicious websites.

CrowdFix - Smart Civic Issue Reporting System

Tech Stack: React, HTML, CSS, REST APIs, Basic System Design

- Conceptualized a civic-tech solution for reporting and tracking public issues using photos, GPS, and AI-based categorization.
- Collaborated with the technical lead to explain system architecture and user flow through clear and structured presentations.
- Designed the project pitch deck and presented the problem, solution, and feasibility during evaluation.
- Focused on improving transparency, prioritization, and accountability in civic issue reporting.

ACHIEVEMENTS & AWARDS

- Solved 200 problems on LeetCode.
- Participated in Smart India Hackathon.
- Cleared certifications in Data Analytics and Cybersecurity Essentials.

ACTIVITIES

- Presented the Phishing Website Detector Extension during a company visit, explaining the problem statement, detection approach, system workflow, and real-world cybersecurity impact.
- Participated in Smart India Hackathon (SIH), contributing to the development and presentation of CrowdFix, a smart civic issue reporting platform.
